Institutional distinctiveness

Bajkul Milani Mahavidyalaya was established on 3rd September of 1964 by the then minister of state for industry (from 1977 to 1979) to invoke higher education among the students from the remote areas of the district of Purba Medinipur. Smt. Abha Maity herself was an eminent politician and social workers and the first president of this college. At the beginning it was a degree college under the Calcutta University and later it has been running its courses under the Vidyasagar University. Apart from imparting general higher education this college offers professional and technical courses like Major in Automobile Maintenance and ITI. The college performs many activities and initiatives like tuition less concession for students, social awareness program, blood donation camp, tree plantation program, cleanliness programs and take part in other socio-cultural activities in the local areas.

Among many distinct features of this college some are stated in the description file available in the link of additional documents.

A. Distinctive Academic

A1. BAJKUL MILANIMAHAVIDYALAYA PRIVATE (I.T.I.)

This wing of the college was established in August, 2015 under the affiliation of NCVT to provide the vocational or technical education among the local area students. We provide two trades, Electrician and Fitter. Given the location of the college in one of the semi rural areas of East Midnapur, where students primarily come from marginalised communities and are first generation learners, the departmental teachers have to put extra effort to alleviate the academic mind of the students. In this regard, our college teachers deserve special applause as they try their level best to inculcate analytical thinking and building of cogent arguments through classroom discussion and class presentation of topics/texts once taught in class. One distinctive feature of our college is we have I.T.I. course under the regulation of NCVT. This two years course was started in 2015 to satisfy local demand. At present there are 20 seats for fitter and 20 seats for electrician. We are proud to say that each year we conduct campus interview for this stream and to date students have almost 100 placement.
